

# A New Beginning

Adamina Mohsin Siddiqui

Life always has a start,

Each one is different, and it follows its own path.

In your life you are meant to be free.

When you see, a flower on a tree,

Our heart fills with glee!

First comes the seed, then it grows into a weed.

As it grows taller and taller,

Some plants can be a climber, while some as a crawler!

Life always has a new start,

So be joyful and be happy with what you

have as you are the star!
