

Quarantine Days

Holiday, holiday, holiday

The school is closed, said my mother one day.

My heart filled with joys

Thinking about playing with the boys

Cricket, football, minecraft, play station

Want to play with friends through communication.

One day, two days, many more days passed away

Now find there is no end of this holiday.

I miss my teachers, I miss my friends

I want to go back to school as soon as the corona virus ends.

-Syed Afrad Suhair
